Community Survey

The City of Valley desires to grow and prosper and your input is needed!

In the fall of 2016 the City of Valley entered a contract with the East Alabama Regional Planning and Development Commission, based in Anniston, to update the City's Comprehensive Plan. The Comprehensive Plan serves as a public policy guidance document for community and city leaders to direct land use and future development in accordance with city goals and needs.

The plan uses the survey to gather information from the public on important values, issues, and resources needed to determine goals and priorities for future policies, plans, and projects over the next 10-20 years.
